THE  
TALE  
OF  
A  
TIGER

# I, AND PROUD TO BE

*Because fine students honor me  
By wanting traits of my specie  
To be their traits — symbolically.*

*So with hard striving (And fun? Yes, sir!)  
They work and play like a ti—ger:  
In fight on field you hear a "Grrr!"  
But at a dance—a sociable "Prrr!"*

*Now the tiger prrr, the tiger grrr  
Are obvious signs of my nature,  
But subtler sound, from beneath head fur,  
Reveals the trait that makes one stir!*

*(For what's more subtle than the "whrrrr"  
Made by the brain of a cog - it - a - tor?)*

*So with books and tools with which to stir  
My friends at Tech create a "WHRRR!"  
They think and think like a ti—ger;  
Their goal: to be more eruditer!*

*At this fine school Tech students and me  
Do spend our time successfully  
By grrr and prrr and whrrr! (You see?)  
'Tis of profit a Tech or real tiger to be!*

**HAMMOND TECHNICAL VOCATIONAL  
HIGH SCHOOL**

*You doubt, you say, this theory by me?  
No spoof! Here's proof: photography.  
So turn the page and you will see  
Some hundreds of pictures to make you agree!*

**THE TALE OF A

PAT MIKULSKI, of Tech, and Ray Cross, of H.H.S., grappled for the ball in the Tech-Wildcat encounter.

# Record Since 1949

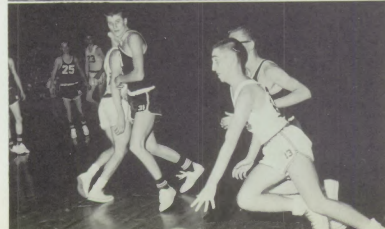

The 1960-61 addition of the Hammond Tech Tigers was one of the most interesting to represent the school in a long, long time, according to Coach George Bereolos. This year's team compiled the best won and lost record for varsity play since 1949. The fine play of Dave Anderson, Pat Mikulski, and Mike Williams enabled the Tigers to impress all opponents in our region.

The winning of the Huntington Tournament established the '61 quintet as one of the formidable clubs in the region. The team's final status would have been enhanced greatly had not the loss of Jorge Ortega taken place in December.

To return from the tournament squad for the 1961-62 season were Deleas Littlejohn, Mike Williams, Joe Czarnki, Ron Walsh, and Don Bjork.

COACH BEREOLOS injected strategy and spirit into the Tigers during a time-out.

# Science Students Probed Mysteries

IN MR. W. PARSON'S CHEMISTRY class, Tony Broadwell compared the color and texture of two chemical solutions.

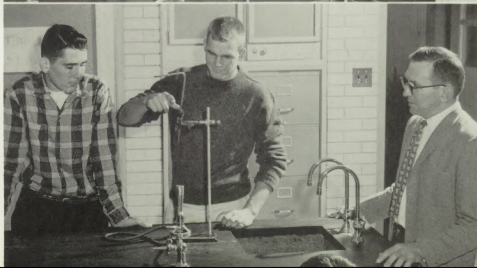

JOHN RIETSMAN, senior, attracted static electricity with his finger from the Van De Graff generator which he was working on. Ordinary pieces of string stood on end from around the ball of the generator because two like charges of electricity repel each other.

MR. WILLIAM PARSON'S CHEMISTRY CLASS prepared soap the day this picture was taken. Experiments tied in with problems in local industry.

## Senior History

The Senior Class of 1961 started their last high school year by electing its officers.

The name of the Senior Class party to which the Junior Class was invited was "Starlight Night" held on November 30, 1960.

The class colors were orchid and white; the class flower was the carnation; the class moto was: "They conquer who believe they can; it can be done."

"Mr. Coed," a farce comedy, was given by the Seniors on October 25, 1960.

The Senior Dinner was held on May 2, 1961, in the Rainbow Room. The Seniors were honored by an assembly on Class Day, May 26, 1961, at which time the will and prophecy were read.

Baccalaureate Services were held on June 4, 1961, at 2 p.m. in the Auditorium. The service was conducted by the Rev. Richard Lancaster of the Woodmar Methodist Church.

Commencement exercises were on Wednesday, June 7, 1961, 8 p.m. Mr. Kurt H. Peters, of Bismarck, North Dakota, who is the circulation manager for the BISMARCK TRIBUNE, addressed the Graduating Class.

The sponsors of the Senior Class were Mrs. Ethel Byrne and Mr. Gerald Kackley.

*A tiger, I, and proud to be,*

# BECAUSE FINE STUDENTS HONOR

*By wanting traits of my specie  
To be their traits — symbolically.*

*So with hard striving (And fun? Yes, sir!)  
They work and play like a ti—ger:  
In fight on field you hear a “Grrr!”  
But at a dance—a sociable “Prrr!”*

*Now the tiger prrr, the tiger grrr  
Are obvious signs of my nature,  
But subtler sound, from beneath head fur,  
Reveals the trait that makes one stir!*

*(For what's more subtle than the “whrrrr”  
Made by the brain of a cog - it - a - tor?)*

*So with books and tools with which to stir  
My friends at Tech create a “WHRRR!”  
They think and think like a ti—ger;  
Their goal: to be more eruditer!*

*At this fine school Tech students and me  
Do spend our time successfully  
By grrr and prrr and whrrr! (You see?)  
'Tis of profit a Tech or real tiger to be!*

ME,

what's  
their  
future

The young people you see in these pictures are all on their way to successful careers in one of America's basic industries . . . steel. They decided (as we hope you will decide) to let Inland Steel Company help them plan their future.

Some are gaining knowledge and experience in special trades to become journeyman machinists, carpenters or electricians . . . some are concentrating on certain phases of steelmaking by working in the open hearth shops, the cold rolling mills or the galvanizing lines. Still others are working in laboratories building

a sound foundation for a future in steel research.

Inland offers the high school graduate an excellent opportunity to further his education. Employees may participate in a variety of on-the-job training programs, or they can continue their formal education by registering for evening courses offered by local Purdue and Indiana University Extension Centers.

Plan now to investigate the unlimited opportunities for you in steel . . . with the midwest's own steel company . . . INLAND STEEL.

If your eyes are on far horizons following graduation, here's a suggestion from Peppy Flame and Reddy Kilowatt: Look around you right here in NIPSCOLAND!

There are vast and challenging opportunities in northern Indiana for trained young men and women in industry, commerce and agriculture. Some of the greatest challenges await the talent and imagination of young people in the investor-owned utility business.

### EDWARD CONGRATULATES HAMMOND TECH GRADUATES

Another fine group of men and women will join the ranks of Tech alumni. Many of our best employees have come from Calumet area high schools, especially Hammond Tech. They work as technicians in our world-famous research and experimental laboratories (above), as draftsmen and designers in our quality-conscious engineering department, as production workers in our modern manufacturing plant, or they perform a wide variety of duties in our many fine offices. We're proud of these Tech graduates. We hope to see more of them.
